NADISH SATHSARA

Full-Stack Developer | Computer Science & Engineering Undergraduate

nadishsathsara2003@gmail.com | nadish2003.github.io
GitHub: nadish2003 | LinkedIn: Nadish Sathsara

PROFILE

Second-year Computer Science & Engineering undergraduate at the University of Moratuwa with hands-on experience building full-stack web and Java desktop applications. Works across React interfaces, Java and Python backend services, and MySQL databases, with individual project ownership and team experience in clinical workflows.

EDUCATION

University of Moratuwa | Computer Science & Engineering

Second-year undergraduate

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, TypeScript, SQL
Frontend: React, HTML, CSS, Tailwind CSS
Backend & data: Spring Boot, FastAPI, MySQL, JDBC
Desktop & tools: JavaFX, Maven, GitHub, Vivado

SELECTED PROJECTS

Movie Ticket Booking | Individual full-stack project

React, TypeScript, Tailwind CSS, Spring Boot, MySQL

- Built the complete frontend and backend for movie discovery, showtimes, seat selection, booking history, and administration.
- Implemented customer and administrator workflows with JWT authentication, booking conflict checks, and simulated payments.

Frontend source | Backend source

CATMS | Team project - Clinical consultations & prescriptions

React, Python, FastAPI, MySQL

- Contributed the Member 4 clinical workflow: treatment search, category filters, policy coverage, consultation records, and multi-item prescriptions.
- Worked on vitals, diagnoses, follow-up dates, and consultation completion with invoice generation through an atomic MySQL stored procedure.

Frontend source | Backend source

Student Attendance Management System | Individual desktop project

Java, JavaFX, JDBC, MySQL, Maven

- Developed a layered desktop application for student and course records, lecturer scheduling, attendance marking, and reporting.
- Implemented administrator and lecturer roles, scheduling conflict detection, and filtered attendance summaries.
